PROJECTS

Najmus Sport Academies (Summer Camp School Website) [Server Site Git hub](#) | [Client Site Git hub](#) | [Live Site](#)

(Admin user Id: najmus11@gmail.com || password: Sakib@1)

Technology Used: React JS, React Router, Tailwinds, DaisyUI, Firebase Authentication, ExpressJS, JWT, React Query, React Hook form, React Icon, vercel etc .

- ❖ An instructor can add classes of his choice. But an admin will approve or deny. If approved then it will be added to the classes page and students can select it.
- ❖ And after the students select it will be added to the my selected page of the student dashboard and then the student will make the payment.
- ❖ Admin can make anyone an instructor if he wants. Instructors can then update their classes and students can view their payment history

CHEF (Chef Recipe Hunter Website)

[Server Site Git hub](#) | [Client Site Git hub](#) | [Live Site](#)

Technology Used: React JS, React Router, Tailwinds, DaisyUI, Firebase Authentication, ExpressJS, vercel etc.

- ❖ When a user clicks on a chef's View Recipes button, he/she will be redirected to the Chef Recipes page.
- ❖ When clicking on the favorite button, a toast message will be shown and disable the button.
- ❖ The Chef Recipe page is a private/protected page. If you reload the secure/private route (after login), this page will not redirect the user to the login page. Instead, it will place the logged-in user in secure root.

ROBOT GALAXY (Toy Marketplace website)

[Server Site Git hub](#) | [Client Site Git hub](#) | [Live Site](#)

Technology Used: React JS, React Router, Tailwinds, DaisyUI, Firebase Authentication, ExpressJS, MongoDB, Heroicons etc.

- ❖ An All Toys page where you can see the toys added by all users in a tabular form. Without logging in, if a user clicks the View Details button, they will be redirected to the login page.
- ❖ Add A Toy page will be a private route User can add toys on this page.
- ❖ My Toys page will be the private route If a user logs in, they will see the My Toys page, which will show all the information about the toys added from the Add a Toy page in a tabular form. Each row will have an Update and Delete button.
